## Chart Rules

- Prefer one highlighted series in accent gold.
- Use muted gridlines and white axis labels on dark backgrounds.
- Keep chart title above plot area and captions below chart in muted text.
- Leave at least 12 pt between chart and adjacent text blocks to avoid overlap.

## Spacing Rules

Use a minimum margin of 0.5 in, a content gutter of 0.25 in, and paragraph spacing of 6 pt. Keep text boxes below 85% fill to preserve whitespace and readability.

Caption: The generator enforces simple anti-overlap rules by reserving text and visual bands instead of auto-fitting content into every free pixel.
